

INTEREST FREE INSTALMENT PLAN.

Up to 24 Interest Free Monthly Payments

We're an energy efficiency company and we understand that you don't always have the up-front money to be more energy efficient - so we're here to help

One Smart Energy Account.

Health and Comfort

As we have a wide range of energy efficiency products we can help you prioritise which products will have the best effect at your property and start a journey to an ever better, more efficient home.

One-by-one your One Smart Energy Account can transform your home at a rate you can afford - and all interest free.

Interest Free Instalments

Our One Smart Energy Account gives you a true instalment plan aimed at paying your products off within the interest free period.

Payments are easily calculated too - just divide the price by the payment period you want - 6, 12, 18 or 24 months.

Start an Energy Efficiency Journey

As we have a wide range of energy efficiency products we can help you prioritise which products will have the best effect at your property and start a journey to an ever better, more efficient home.

One-by-one your One Smart Energy Account can transform your home at a rate you can afford - and all interest free.

Any Hooks?

Yes - you need to pass our credit check.

After that:

- No contracts
- No joining fee
- No annual fees
- No early repayment penalties

Frequently asked questions.

Are there any finance costs?

Easy answer... NO!

How long do I have to pay off my products?

You pay in up to 24 equal instalments.

Is there a minimum purchase requirement to avail the interest-free payment plan?

Yes, there is a minimum purchase requirement of \$500.

How much are the repayments?

We keep it simple - just divide the total value of the products by the number of months you are paying over (6, 12, 18 or 24).

Can I pay off the products earlier?

Absolutely. If your financial situation changes, or you move, you can pay the remaining product balance in full without any penalty.

What products can I put on my account?

Any products from the Brighttr product range.

How much (what value) of products can I put on my account?

We allow you to put up to \$8,000 worth of energy efficiency products on your One Smart Energy Account. It does come down to what's affordable for you on a monthly basis and a credit check. We recommend that you consider your other monthly costs before committing.

How do I pay my bill?

To keep things simple and keep our costs low we take direct debit payments only.

Can I use this for my rental property?

No. The terms of finance for the One Smart Energy Account stipulate that it can only be used by owner occupiers.

Can I make weekly payments?

We're sorry but currently we are set up for monthly direct debits only as a means of providing the interest free funding.

Can I change the length of the Interest Free period?

Yes, as long as the total period doesn't exceed 24 months. For example, if you initially signed up for a 12-month interest free period and changed it, the remaining balance will be spread equally across the remaining number of months.

What next?

If you like the idea of a instalment plan

- ✔ Request a Quote or Estimate from Brighttr.
- ✔ Your quote will include a breakdown of the monthly amount based on the instalment plan period you prefer.
- ✔ Accept (sign) the offer & Direct Debit authority to initiate the credit check.
- ✔ If accepted we'll quickly progress to get your products installed.
